

ASSEMBLY CONVEYOR

Eliminate the space and walking of a rail assembly operation with an Assembly Conveyor. The operator brings the desired order to their position with a convenient foot switch, and loads the conveyor from a single location. Inspection, accuracy and operator efficiency are improved with this space and labor saving model.

Without Plates Model No.	Order Capacity	With Plates Model No.	Order Capacity	Overall Length with Garments
GAAW200	200	GAAP200	80	11'-0"
